

TECHNICAL DATA

Fluke TiS55+ and TiS75+ Thermal Imagers

FLUKE CONNECT™ ASSET TAGGING

Eliminate hours at the computer organizing your thermal images, let Asset Tagging do all that work for you. No more dragging and dropping or renaming files in the office, just scan a QR code on your asset, capture your thermal images and they automatically are sorted by asset. Start spending your time analyzing your images and creating reports instead of sorting your files one at a time.

Be proactive instead of reactive

Take your plan for a proactive maintenance (PM) program and turn it into reality. To get started, you need features that make it easy to set up your image organization and inspection routines. With the TiS55+ and TiS75+, you're well on your way to implementing a successful PM program.

Ditch the clipboard

With so many inspections in your day, it can be hard to remember what you saw and where you inspected. Maybe you carry around a clipboard to jot down notes. The TiS55+ and TiS75+ come with built-in personal assistants, which means you can finally ditch the clipboard and have all the information you need embedded in the images you save, including:

- Voice annotation
 - Record up to 60 seconds per thermal image
 - Identify exactly what you see in real time
- IR-PhotoNotes
 - Take photos of asset numbers and other identifiers
 - Use as a reference when looking at the thermal image on your computer
- Asset Tagging
 - Sort your thermal images by asset
 - Scan a QR code on your asset, then start capturing thermal images
 - Images will automatically be sorted by asset, simply connect your camera to your computer to view them.

Infrared image of motor from Fluke TiS55+ thermal camera

Infrared image of motor from Fluke TiS75+ thermal camera

Rugged. Reliable. Accurate.

- 384 x 288 (TiS75+) or 256 x 192 (TiS55+) infrared resolution
- -20 °C to 550 °C temperature range
- 3.5" VGA Touchscreen LCD display
- Water and dust resistant (IP54)
- Engineered to withstand a 2-meter drop

Specifications

Key Features	TiS75+	TiS55+
Infrared resolution	384 x 288 (110,592 pixels)	256 x 192 (49,152 pixels)
IFOV	1.91 mRad	1.91 mRad
Field of view	42° x 30°	28° x 20°
Minimum focus distance	0.5 m	0.5 m
Focus system	Manual focus and 1 meter focus marker	Manual focus and 1 meter focus marker
Wireless connectivity	Yes, to PC, iPhone® and iPad® (iOS 4s and later), Android™ 4.3 and up, and WiFi and LAN (where available)	Yes, to PC, iPhone® and iPad® (iOS 4s and later), Android™ 4.3 and up, and WiFi and LAN (where available)
Fluke Connect app compatible	Yes*, connect your camera to your smartphone, and images taken automatically upload to the Fluke Connect app for saving and sharing	Yes*, connect your camera to your smartphone, and images taken automatically upload to the Fluke Connect app for saving and sharing
Fluke Connect Assets optional software	Yes*, assign images to assets and create work orders. Easily compare measurement types —whether mechanical, electrical or infrared images—in one location	Yes*, assign images to assets and create work orders. Easily compare measurement types —whether mechanical, electrical or infrared images—in one location
Asset Tagging	Scan a QR code to automatically organize and file thermal images with Fluke Connect $^{\! \text{\tiny TM}}$	Scan a QR code to automatically organize and file thermal images with Fluke Connect $^{\text{\tiny TM}}$

Visit www.fluke.com to get complete details on these products or ask your local Fluke sales representative.

Preventive maintenance simplified. Rework eliminated.

Save time and improve the reliability of your maintenance data by wirelessly syncing measurements using the Fluke Connect system.

- Eliminate data-entry errors by saving measurements directly from the tool and associating them with the work order, report or asset record.
- Maximize uptime and make confident maintenance decisions with data you can trust and trace.
- Move away from clipboards, notebooks and multiple spreadsheets with a wireless one-step measurement transfer.
- · Access baseline, historical and current measurements by asset.
- Share your measurement data using ShareLive™ video calls and emails.
- The TiS55+ and TiS75+ infrared cameras are part of a growing system
 of connected test tools and equipment maintenance software. Visit the
 Fluke website to learn more about the Fluke Connect system.
